arrangements were being made for the parade of 1898 That parade was the greatest one of its kind ever held in an American city, but it is no exaggeration to say that the demonstra-3 will be even greater. More trades will be represented, and those that were in the parade four years ago have each pledged hemselves to a greater turnout of men than In the dry goods trade alone there will be several thousand more men in ine than there were in 1896. The same is true of the paper trade, which alone will turn out nearly fifteen thousand men. All of the other rades report increased numbers who want to get in line for McKinley, Rossevelt and sound money, so that there is no reason to doubt that fully twenty-five thousand more men will be in line than turned out for the great emonstration for national honesty in 1896. The 1896 parade is variously estimated as having been participated in by from 110,000 to 125,-000 men. It took aboutsix hours for this parade to pass. It is believed that it will take at least eight hours for the parade of Nov. 3 to pass, and arrangements are being made to have police on duty for that length of time.

The number of men who want to get in the parade, who were not in four years ago, has been a metter of comment among those who are making the arrangements for the tremendous turnout. Inquiries have been made in the different trades, and it has been found that while many of the recruits are reformed Bryanites. the greater number of them are men who didn't have jobs in 1898, but got them under the prosperity which has marked the present adminstration, and now want to keep them. They see only one way to keep the demand for all classes of labor even with the supply. McKinley must be elected, sound money must be asared the country, and in behalf of these things they are not only willing but anxious to get in line and whoop it up for the Republican can-

Not only in numbers but in many other ways is the coming parade to excel that of There are to be no uniforms worn, but that is not going to prevent a great display of color. The men of the different trades will carry banners and flags as well as articles blematic of their particular lines of business. The managers of the parade want to make the day one to be long remembered: they want it to be a day when every man, woman and child can either participate in the parade or come out in the street and see the kind of men who are lined up against Bryanism and for the gold standard. At a meeting of the Committee of Arrangements yesterday a resolution was passed to this effect:

business men of Greater New

of Arrangements yesterdary a resolution of passed to this effect:

"That the business men of Greater New York be requested to cooperate with the Business Men's Republican and Sound Money Association in making Nov 2 a holiday as far as possible, by closing their places of business on that day to enable their employees to participate in or view the parade.

This resolution was only passed after a number of the leading business men in the city had been sounded on the subject. It was found that almost all of them were heartily in favor of such a course. So it can be asserted with reasonable certainty that the lower part of the city will be closed up on the day of the parade. Those in charge are immensely pleased with the interest that is being shown. The applications are coming in so fast that it is keeping a corps of clerks busy registering them, while the Grand Marshal, Gen. Anson G. McCook, is at his wit's ends to find places in the line for all those who want to march. At Gen. McCook's headquarters at 296 Broadway and at the offices of the Sound Money Association, 5 Pearl street, everybody is working like a beaver to make the parade a success. It doesn't seem as though there were any more trades to be heard from after one has looked over the list of those who have already been registered, but Vice-President Edward A. Drake says that there are still others and that the delay is due to the fact that they wont send in their applications until they can send with them an estimate of the number of men they will turn out. Out-of-town folks have had to be seratched off of the list entirely. The Committee of Arrangements has been fairly inundated with applications from out-of-town business men for places in the line. Philadelphia business men from every city of any size

At that time the police arrangements, were almost perfect. Almost all of the details connected with the work of creeting stands and fixing on the line of march were dinished vesterday. The line of march will be as follows. Through Broadway to Waverley place, thence west to Fifth avenue, and thence north through Fifth avenue, and thence north through Fifth avenue, and thence north through Fifth avenue to Fortieth street. Gen. McCook, who is at his Broadway headquarters every day now, has, in addition to 
the route, decided upon the order of the parade. 
First will come the grand marshal and his 
aides, mounted; Gov. Roosevelt and Col. William 
L. Strong in a carriage, the Executive committee 
in carriages and then the paraders on foot. 
After he passes the reviewing stand Gov. Rooseveit will leave his carriage and will join President McKinley in the reviewing stand. Standing together, the sound money men will then 
have the chance to see their candidates for 
the Presidency and Vice-Presidency of the 
United States. Gen. McCook's first orders 
regarding the formation of the columns were 
issued yesterday. In this order he says:

Each organization will be formed into combanies of single rank, sixteen files front, including two guides.

Companies will march with an intervening 
distance of three paces and under no circumstances must this distance be exceeded.

Each organization will be under the command of a marshal, who, with his staff, will

to Start Two National Banks-3,500 Policemen, Who Are Warned to Use Clubs Only in Self-Defence, Will Handle the Crowds. The Hon. Richard Croker, Chieftain of Tammany Hall, held a meeting last night of the Ratification Committee which has in charge the arrangements for the Bryan demonstration that will cover the city to-night from Madison Square Garden to Cooper Union. Mr. Croker heard the reports from the sub-committees and then said that the reception to Col. Bryan and the other distinguished Popocrats who are running for office on the free silver ticket would be the biggest political demonstration New York had ever seen. If money can make a political demonstration a success this should be, for Mr. Croker has

not spared the Tammany campaign fund in any of the arrangements, and the details have been perfected by the highest-priced officers in the city administration. Members of the committee said last night that the cost of the "Bryan blowout" would start two national banks. As an example of the lavish way in which money has been used the item of fireworks may be taken. Madison Square Garden, the streets about it, the park, Fourth avenue, Fourteenth street, Third avenue, and Cooper Union, and the streets about it, are to bemade as light as red fire, skyrockets, Ro-

A white banner marked with the name of the organization will be carried on the left of the last company of each organization to designate its rear and serve as a signal to the organization which is to follow.

The jewellers' trades division will have as its marshal Col. John L. Shepard, the President of the Sound Money League of the United States. Col. Shepard is organizing his division now and he has found that practically every man engaged in the lewelry trade is a McKinley man. "I expect to lead between 5,000 and 6,000 jewellers up Broadway on that day," said Col. Shepard working men in the jewelry trades of New York to hold a meeting. We expect to make the biggest demonstration of jewelry trades workingmen ever seen in this country. The division including the dry goods, hat and cap, clothing, collar and cuffs and gentlemen's furnishing trades will turn out about 35,000 men. There will be a separate division others. Mr. Croker estimated last night that 40,000 people would hear Col. Bryan speak this evening, and that four times that number would watch him and the other fireworks.

ARMY OF COPS TO GUARD BRYAN. And Every One Must Be Polite and Use His

Club Only in Self-Defence. The most elaborate preparations have been made by the police for the safety and comfort of Col. Bryan this evening. According to orders sent out last night by Chief Devery someting. These autumn mornings thing like 3,500 policemen will be on duty in and about Madison Square Garden until the meeting there is over and Mr. Bryan is safe inside his hotel. In addition to this army of uniormed men all of the precinct detectives in plain clothes will be stationed at places where they are likely to be needed. Patrol wagons and ambulances will be in readiness, and under the stairway inside the garden there will be established an emergency hospital ready to receive those overcome by heat, crowding or

the stress of their emotions. Bryan's official arrival is timed for 2:55 o'clock at the Grand Central station. Capt. Price will have charge of the police at the station. When Mr. Bryan appears, a mounted escort, consisting of one sergeant two roundsmen and seventy-five policemen will conduct him to the Hoffman House, where Capt. Thomas, the Hoffman House, where Capt. Inside the Garden there will be four telephone stations that orders may be sent from one side to another without disturbing the crowd. There will be detectives everywhere to watch for crooks and to arrest any they think should be arrested on sight.

Chief Devery sent out printed instructions about all these things last night. He also ordered patrolmen to wear white gloves, white helmet and dress coats. Billies must be worn in the trousers pocket and must only be used "in extreme cases where necessary in self-defence," and cops must be patient and forbearing and polite to everybody under all circumstances.

CRIMES M'CULLAGH HAS FOUND, Outside the Election Cases, to Be Prosecuted

John McCullagh, State Superintendent of Elections, called upon District Attorney Gardiner yesterday afternoon and was closeted for an hour with him and Assistant District Attorneys Unger and Hennessy. Mr. McCullagh was there, he told Col. Gardiner, to acquaint him with the fact that the McCullagh deputies, while investigating election cases, had come across many flagrant violations of statement concerning what had passed between himself and Col. Gardiner, but it was
learned that the conference was entirely
friendly. Whether or not Mr. McCullagh will
take election cases directly to the Grand Jury
through Deputy Attorney-General Hedges,
as was done last week, was not discussed. In
a letter to Mr. McCullagh which Col. Gardiner
gave out yesterday, he said that it might work
harm to a voter to indict him on a charge of
colonizing or registering illegally and thus
prevent him from voting, when an arraignment before a police magistrate might result
in his being absolved from all charge of wrongdoing in time for him to vote.

ment before a police maristrate might result in his being absolved from all charge of wrong-doing in time for him to vote.

Sunt McCullagh's idea in calling in the aid of the District Attorney is the carrying out of his belief that it is better to prevent violation of the franchise laws than to punish such violation after it has been committed.

"I have positive evidence that these places have been used for colonization," said he yesterday. "Now, if they are closed and made to stay closed, the colonizers who intended to register from them are driven off. I'm not running a vice crusade, but if violations of the excise laws occur in the same place where colonization is practised the stamping out of the one stamps out the other.

This is one way of reaching the violation of the franchse. Another ts through the Attorney-General, under whose jurisdiction comes the prosecution of cases of perjury in which keepers of lodging houses send in false returns to Supt. McCullagh's office.

"I intend to use every means in my control to stamp out this colonization," said Supt. McCullagh," and I firmly believe from the results so far that I am going to succeed. We have the colonizers under our thumb. They are scared off."

Paint Club Whooping It Up for McKinley. The first of a series of daily Noonday meetings of the Drug, Paint, Oil and Chemical Republican Campaign Club was held yesterday in its rooms at 51 John street. The hall was filled to overflowing and late comers had to stand outside on the sidewalk. George J. Seabury presided and State Senator Elsberg and Gen. Steele each spoke for about fifteen minutes on the issues of the campaign. The crowd was all attention. Arrangements were made later for a torchlight procession on Saturday night, Nov. 13

Mr. Powderly was formerly Grand Maste Workman of the Knights of Labor and is still in close touch with organized labor throughou the country. He said that the men who opposed the stand he took for McKinley four years ago came to him all through Indiana and Kentucky, joined in the meetings of workingmen which he addressed, and where four years ago they were working for the election of Bryan, they would now vote for McKinley Some of the statements made by Mr. Powderly to-day were:

"Indiana is a torchlight procession from one end of the State to the other for McKinley and will give him at least 18,000 majority.

dreds of Democratic workingmen who neve man did not attend the meetings. I met hundreds of Democratic workingmen who never cast a Republican vote in their lives who will vote for McKinley this year, though they voted for Bryan in 1896. A great many of my old friends in the various labor organizations were bitter against me in '96 for taking the stump for Mr. McKinley. The same men occupied seats on the platform at the meetings I addressed this year. They are satisfied with the Administration. They indorse it in everything and say that my advice four years ago was good, though many of them did not take it. They are ready to take it now.

"When Mr. McKinley was in Congress the officers of organized labor never came to Washington on any matter that they did not go straight to him when they got here. He always advised them for their good and never deceived them in anything. They always had confidence in him, and workingmen have more confidence in Mr. McKinley to-day than they ever had.

them in anything. They always had confidence in him, and workingmen have more confidence in Mr. McKinley to-day than they ever had.

"On this trip I met prominent members of the Amalgamated Association of Iron and Steel Workers, of the Glass Workers' Association and members of the Journeymen Potters' Association, and I learned that the old officers of these associations, who formerly cooperated with me here in Washington when Mr. McKinlay was in Congress, are making a personal canvass in these associations in the interests of Mr. McKinley's election and are working effectively to that end. As an example of this work I may say that at Kokon e. Ind. a week ago to-day, after an address: Imade at a flag-raising at the plate glass works, a McKinley and Roosevelt Club was organized and 385 members were enrolled that evening out of 600 employees in the works. The night shift had not yet come on, and I have been informed since that most all of these 600 employees have joined this club. Every factory and every mill and every workshop from one end of Indiana to the other has a McKinley and Roosevelt Club, and it is a significant fact that these clubs are all paying their own expenses. That is one of the best evidences in the world that the men are enthusiastic for the Republican candidates.

"Incidentally, I may say that in travelling all over Indiana and Kentucky I talked with scores

the penal code. For instance, they had discovered gambling houses and violation of excise laws and building laws and the evidence was at the District Attorney's service. Col. Gardiner said that he would instruct Mr. Hennessy to put himself at Mr. McCullagh's service. Mr. Hennessy would see that complaints were properly drawn, so that cases might be presented before police magristrates in the first instance instead of to the Grand Jury direct. Mr. McCullagh would make no statement concerning what had passed between himself and Col. Gardiner, but it was and address workingmen in fore the close of the campaign.

He said the members of the National Campaign Committee and the State National Campaign Committee and the State Campaign Committee were greatly elated when they heard what Kings county had done in the matter of registration. He said that he had nade careful inquiries throughout the State during his last trip and was satisfied in his own mind that the Empire State would give the National Republican ticket nearly as large a materity as it received in 1806.

"I feel satisfied," he said, "that Kings county is safely Republican and will give a good majority for McKinley and Roosevelt. I do not think that it will be as large as McKinley received four years ago, but I do feel positive that the figures will be satisfactory. But this must not allow you to let up in your work in the election districts."

Mr. Woodruff said that he expected that the Republicans of Kings county would elect three Congressmen, four Senators and thirteen Assemblymen. "I mean by that," he said, "that we are sure of these, but by extra hard work on your part we will elect more."

"We will elect Owens," said one of the workers, "He licked McCarren before when he didn't even try."

Walter B. Atterbury, chairman of the County Committee, and Col. Michael J. Dady, chairman of the Campaign Committee, also spoke and dwelt at length upon the duties which the election district workers owed to the party and to themselves. Campaign Committee were greatly elated when

WORKING NEW YORK AND INDIANA. Campaign Managers Putting Their Weight on These Two States. CHICAGO, Ill., Oct. 15.-Both Republican

and Democratic managers entered upon the last three weeks of the campaign to-day, vociferously claiming a victory for their tickets. Unkss Bryan can carry both New York and Indiana the conservative leaders say has no show of election. For that reason the campaign will be "whooped up" in these two States from now until Nov. 6 with all possible vigor. To-morrow Bryan and Stevenson begin their tour of the Empire State, starting in Greater New York, under the supervision of Boss Croker, and the managers at the Chicago headquarters do not attempt to conceal their anxiety about the result of the State, met to-night to the number of 160 and formed a prosperity campaign club, under the name of the Albany Printing Trades Club. The members of this club are particularly indignant at the effort made by certain Democratic members of the local union to give out the impression that members of the craft generally in this locality are opposed to the election of the Republican national and State tickets.

The organization formed to-night is particularly strong and thoroughly representative of the state of the color of the state of the color of the state of the craft generally in the locality are opposed to the election of the Republican national and State tickets.

The organization formed to-night is particularly strong and thoroughly representative of the color of the state of the invasion. On the other hand, the Republicans have gone into the claiming business, which is at variance with their usual custom and is considered proof of a jubilant confidence which will not be suppressed even by offinity in the suppressed even by containty in the west. men who send in flawering reports of conditions are told to increase their efforts as election day approaches.

Vice-Chairmen Payne's latest estimate gives McKinley 270 electoral vetes certain, Bryan 115 certain, with 38 hanging in the balance and 24 which incline to the Democratic column.

"I regard Mr. Payne's table as an instance of a man whistling as he goes through a graveyard to keep up his courage," said Chairman Jones to-day.

"It is absurd for the Republicans to claim California, Connecticut, Kansas, Illinols, Minnesota, New York, New Jersey, North Dakota, Ohio, South Dakota, West Virginia, Wisconsin and Wyoming, not to speak of other States which I might mention. It is utterly absurd to claim these States as certain for McKinley."

Chairman Jones was asked if he meant to go to New York to participate in the Bryan festivities. "No," said he. I mean to stay right here in this office until Bryan is elected.

One sceptic hinted that the Democratic committee's lease of the quarters was not of ninety-nine years' duration. "When I say I shall stay here until Bryan is elected," said Senator Jones, "it means that I shall be here about three weeks longer." about three weeks longer.

WEB DAVIS TO HANNA : LIAR! Says He Got Nothing From Boers, but the British Tried to Bribe Him.

CUMBERLAND, Md., Oct. 15.-Webster Davis, who resigned his position under the present Administration as Assistant Secretary of the Interior, addressed a large Democratic mass meeting here to-night and publicly contradicted the statement made by Storey and repeated by Ranna that he accepted £25,000 from the Boet Government. He said if Hanna made that statement he would class him along with all other liars. He said he was not surprised, for Hanna and his corrupt gaug played into the hands of the British and licked the bloody British boots for gold that the British bad millions and the Hanna gang millions and had he been out for plunder he would not have upheld the little band of ragged farmers fighting for liberty. He said that when he was coming back to America to plead with the Administration in behalf of the Boers, prominent British people approached him and said if he would make speeches in America in their behalf he could name his price. He said that the blood of the Boers was on the head of William McKinley. He said the people were on to Hanna and that nothing but death could prevent Bryan's election.
